

*What sets me apart is my ability to tailor surgical and non-surgical treatment based on the patient's concerns, medical history and examination.*

#### MODERN LUXURY SPOTLIGHT

### **Brent Faulkner, M.D.**

FAULKNER PLASTIC  
SURGERY & AESTHETICS

Brent Faulkner's journey in the medical field began with a simple CPR course and a desire to help people in an emergency. Shortly after that he decided to join a local rescue squad and eventually became an Emergency Medical Technician. During medical school, he discovered a passion for plastic surgery and the wonders it did for patients. Now, at Faulkner Plastic Surgery & Aesthetics, Dr. Faulkner helps patients in a different way but with the same underlying intention of offering unique, top-of-the-line services that transform people's lives.

With 19 years of experience practicing cosmetic and reconstructive plastic surgery, Dr. Faulkner provides procedures that include body contouring, breast and cosmetic surgery and facial aesthetics. "What sets me apart is my ability to tailor surgical and non-surgical treatment based on the patient's concerns, medical history and examination," says Dr. Faulkner, a board certified plastic surgeon. "The art of surgery includes knowing when not to operate or when not to offer a service. I am committed to giving patient's my honest assessment and recommendations."

Dr. Faulkner's care and compassion elevates his practice. Patients come to a plastic surgeon seeking aesthetic refinement, a position often borne out of vulnerability. Because Dr. Faulkner approaches each patient with expertise and sympathy, the patient experience becomes more comfortable and effective, ultimately delivering the best results possible.
